

UNITED WAY IMPACTING OUR COMMUNITY

United Way of Midland County works to advance the common good by focusing on the building blocks for a good life— Education, Health and Self-Sufficiency.

We recruit the people and organizations that bring the passion, expertise and resources needed to get things done.

We have invested years listening to our community to better understand their aspirations and how we can work together to achieve them. That input, along with the wealth of local data, led to the development of our Community Level Goals.
